1.1 with a single reference

This is a well known fact (Basseler 2002, p. 5) and another, not so well known fact (see Samuelson 1998, p. 7).

Schumann (1999) presents a different approach. This can be compared to what has been described by Felderer (2003, pp. 26).

1.2 with multiple references at once

This proposition refers to multiple books (Blanchard 2004; Siebert 2003).

An oppsing view is held by Troßmann (1991) and Mankiw (2003).
